

BEPI TOSOLINI

MASTRO DISTILLATORE IN UDINE

CIVIDINA

In Friuli, Italy's northeastern region sharing borders with Slovenia and Austria, grappa is the spirit of the land itself in a bottle.

Recently renovated stills are the same traditional, manually operated discontinuous copper pot stills that have allowed the Bepi Tosolini distillery to produce its premium aromatic spirits for over 60 years.

Grappa Cividina -
Transparent and crystal clear. Full bodied with a note of fresh fruit and floral aromas typical of the friulan wines.
