

BEPI TOSOLINI

MASTRO DISTILLATORE IN UDINE

In Friuli, Italy's northeastern region sharing borders with Slovenia and Austria, grappa is the spirit of the land itself in a bottle.

Recently renovated stills are the same traditional, manually operated continuous copper pot stills that have allowed the Bepi Tosolini distillery to produce its premium aromatic spirits for over 60 years.

Grappa Cividina -

Full bodied with a note of fresh fruit and floral aromas typical of Friulian wines.

Traditionally served straight as a digestif or blended with espresso - a "caffè corretto".

Selling Points

- 1.0 Liter Bottle Size
- Beautifully packaged with a cork finish
- Crystal Clear
- Traditional Italian after dinner drink
