## BÄRENJÄGER HONEY LIQUEUR

Dating back to 18th Century Germany, this honey liqueur recipe was formulated to lure bears out of their dwellings by hunters & fur trappers. Originally called Bärenfang ('Bear Trap'), this drinkable honey was not only enticing to the bear, but soon became the beverage of choice to the bear hunter as well. This highly alluring concoction has since been refined to be the premium liqueur that exists today. Made with the highest concentration of all-natural honey, Bärenjäger is in a class of its own. Additionally, at 70 proof, it is the perfect addition to any cocktail in need of an all-natural sweetener with a little kick.

- The #1 selling honey liqueur in Germany
- Best enjoyed straight-up, on the rocks or in a warm cocktail
